

BIOGRAPHY

Brett Skinner

Security Business Unit Manager at Datacentrix

As a security business leader specialising in information technology, Brett has gained a knack for understanding clients' business needs and providing them with the best-fit solutions that are product and technology agnostic using a definitive consultative approach to deliver efficient business outcomes. Over the past 20 years, he has worked with best-of-breed IT solutions and service providers such as Microsoft, Symantec, Sun Microsystems, Oracle, Micro Focus/OpenText and BeyondTrust. Brett's strengths encompass researching, evaluating and recognising appropriate solution sets that use a consumption model to ensure holistic information security.
